

Napkin Drawings Feedback for Dashboard

Dashboard Napkin Drawings:

Feedback:

Feedback A) it looks great! i think your graphs are all very telling and detailed. only recommendation is the layout, theres a lot of graphs and it can get distracting looking at. maybe try to throw in some big eye catching numbers and facts. also maybe try to incorporate some legends for those graphs you have!

Feedback B) The overall layout looks good. I would maybe suggest moving the conclusion section to a different position of the dashboard for the first page. I was thinking in the bottom left, but I'm not certain about how that would look/feel as I have thought about it. Also, I am uncertain what the machine learning aspect of the project is from the dashboard.
